ABOUT THE HALL OF FUTURE, ITS MEMBERS & QUALITY ECONOMY.

GROWTH ECONOMY

ABOUT THE FOUNDATION

The Hall of Future is a non-profit organization dedicated to the economy of the future.
The foundation advocates for the ***QUALITY ECONOMY****, merging idealistic development goals with practical implementation expertise.*
The companies of the members represent almost ***two million employees***
in over 150 countries and will soon reach an annual revenue of ***one trillion euros****.*

The represented annual revenue is equivalent to roughly twice the German federal budget.

ABOUT QUALITY ECONOMY

Quality Economy is a **GROWTH ECONOMY** *that promotes not only economic growth but also the development of people, the environment, and prosperity. Not despite, but because of this mindset, Qualitative Economists achieve* **BETTER QUANTITATIVE INDICATORS**.

ABOUT THE MEMBERS

Membership is granted exclusively by honorary appointment.
QUALITATIVE ECONOMISTS *love success, they are value-driven, visionary, optimistic, and future-oriented pioneers. Above all, however, they are realists. Qualitative Economists are aware of the scarcity of resources; they help with impactful authority and strategic transformative power and drive to improve economic and political systems and create new prosperity.*
